MAH-MBA/MMS-CET

FULL VARC / ENGLISH SYLLABUS — MOCK TEST 1

100 Questions • English-only test • Hinglish answer explanations

Total questions	100
Suggested practice time	70 minutes (practice target only)
Format	MCQ — five options, one best answer
Coverage	RC, grammar, vocabulary, sentence completion/improvement, cloze, errors, spelling, jumbles, critical reasoning
Answer resources	Separate answer sheet + key + Hinglish explanations

Instructions

Attempt all questions before checking the key. All test questions and answer options are in English. Base RC and reasoning answers on the given text/argument. The 70-minute target is a practice target, not an official sectional time limit. The published MAH-MBA/MMS-CET 2026 pattern lists 50 questions for Verbal Ability/Reading Comprehension; this 100-question version is an expanded practice mock, not a claim about official section length.

Coverage by practice distribution: Reading Comprehension 20; Sentence Improvement 12; Cloze Test 12; Spotting Errors 12; Vocabulary and all supplied word-study topics 20; Spellings 5; Jumbled Paragraphs 8; Critical Reasoning 11. This distribution is for practice, not official chapter-wise weightage.

PART 1 — READING COMPREHENSION: PASSAGE 1

Modern organisations increasingly rely on indicators to judge performance. Numbers such as tasks completed, calls answered, or items delivered are convenient because they can be compared across teams. Yet a measure is only a model of reality, not reality itself. A department may complete many tasks while producing errors that another department must repair. A support team may answer customers quickly without solving their actual problems. When the measured indicator becomes the only target, people may focus on improving the number rather than the underlying service. This does not mean that measurement should be abandoned. Instead, sensible evaluation combines quantitative indicators with quality checks, long-term outcomes, and evidence about unintended effects. A good metric starts a discussion about performance; it should not end that discussion.

1. What is the central idea of the passage?

A. All performance measurement should stop.

B. Metrics are useful but should not be treated as a complete picture of performance.

C. Customer support should prioritise speed above all else.

D. Numbers are always misleading.

E. Only long-term outcomes matter.

2. The example of the support team shows that:

A. speed guarantees satisfaction

B. answering quickly does not necessarily resolve the underlying problem

C. customers dislike phone support

D. quality cannot be measured

E. all calls should be longer

3. According to the passage, what may happen when a measure becomes the only target?

A. People may prioritise the number over the real objective.

B. People stop collecting data.

C. Teams always become more accurate.

D. Long-term outcomes improve automatically.

E. Indicators become impossible to compare.

4. The phrase “a model of reality” suggests that a metric:

A. contains every possible detail

B. is a simplified representation of something more complex

C. is always false

D. cannot be compared

E. is useful only in science

5. The author’s tone is best described as:

A. hostile

B. balanced and cautionary

C. sarcastic

D. celebratory

E. indifferent

6. Which action would the author most likely recommend?

A. Reward only the number of tasks completed.

B. Ignore all numerical data.

C. Combine metrics with quality checks and long-term outcomes.

D. Use a single metric for every department.

E. Evaluate performance only through opinions.

7. Which statement is NOT supported by the passage?

A. Metrics can help compare teams.

B. Errors can be created despite high task completion.

C. Measurement should always be abandoned.

D. A good metric can begin a performance discussion.

E. A quick answer may fail to solve a problem.

8. “Unintended effects” most nearly means:

A. effects that were not planned or expected

B. effects that were carefully designed

C. effects that are impossible
D. effects that are always positive
E. effects that have no cause
9. What can be inferred from the passage?
A. The same metric may not fully describe every type of work.
B. Metrics are useless in every organisation.
C. All teams should have identical goals.
D. Quality is always easy to count.
E. Only customer service needs evaluation.
10. Choose the best title.
A. Why Organisations Should Avoid Data
B. When Metrics Do Not Tell the Whole Story
C. The End of Customer Service
D. How to Complete More Tasks
E. Numbers Without Meaning

PART 2 — READING COMPREHENSION: PASSAGE 2

Urban green spaces are often defended because they make neighbourhoods more attractive. Their value, however, is not merely visual. Trees can provide shade, reduce heat around streets, and create habitats for birds and insects. Parks can also offer places for exercise and informal social contact. These benefits do not appear automatically whenever greenery is added. A park that is difficult to reach may remain underused, while trees planted without enough soil or maintenance may fail to thrive. Local conditions therefore matter: planners must consider access, safety, water, species selection, and the needs of nearby residents. Counting the number of trees or parks is convenient, but the more useful question is whether green spaces are healthy, accessible, and actually serving the community.

11. The main purpose of the passage is to:
A. argue that parks are mainly decorative
B. explain why the value of green spaces depends on planning and practical use
C. claim that every neighbourhood needs the same number of trees
D. show that urban wildlife is harmful
E. compare cities with villages
12. Which benefit is NOT mentioned?
A. shade
B. habitats for wildlife
C. opportunities for exercise
D. informal social contact
E. lower housing taxes
13. Why might a park remain underused?
A. It contains too many trees.
B. It is difficult to reach.
C. It offers space for exercise.
D. It has local residents nearby.
E. It supports social contact.
14. The author suggests that counting trees is:
A. completely useless
B. sufficient to evaluate green spaces
C. convenient but not enough by itself
D. more important than maintenance
E. the only way to measure public value
15. The tone of the passage is:
A. practical and analytical
B. angry
C. humorous
D. dismissive of parks

E. overly emotional

16. The phrase “These benefits do not appear automatically” means:

A. green spaces never help

B. benefits depend on conditions and implementation

C. trees are always harmful

D. parks must be privately owned

E. access is irrelevant

17. Which factor is specifically mentioned as important for planners?

A. celebrity endorsements

B. species selection

C. parking fines

D. shopping discounts

E. building height limits

18. Which inference is best supported?

A. An accessible, maintained green space may benefit residents more than a poorly planned one.

B. Every park is equally useful.

C. Tree numbers alone reveal community benefit.

D. Maintenance is optional.

E. Urban green spaces have no social role.

19. The phrase “serving the community” refers to green spaces that:

A. are only visually attractive

B. actually meet residents’ needs

C. are located far from homes

D. contain rare species only

E. cost the most to build

20. Choose the best title.

A. Green Spaces: Beyond Appearance and Numbers

B. Why Cities Should Remove Parks

C. The Cost of Wildlife

D. Counting Trees Is Enough

E. Urban Life Without Nature

PART 3 — SENTENCE IMPROVEMENT

21. Choose the best replacement for the underlined part: “Neither the principal nor the teachers <u>was willing</u> to change the schedule.”

A. were willing

B. has been willing

C. is willing

D. was being willing

E. No improvement required

22. Choose the grammatically correct sentence.

A. Each of the applicants have submitted the form.

B. Each of the applicants has submitted the form.

C. Each applicants has submitted the form.

D. Each of applicant have submitted the form.

E. No applicants has submitted the form.

23. Choose the best improvement: “The new policy is more better than the previous one.”

A. much better than

B. more best than

C. most better than

D. better as

E. No improvement required

24. Choose the best replacement: “The manager discussed about the proposal.”

A. discussed the proposal

B. discussed on the proposal
C. discussed regarding about the proposal
D. had discuss the proposal
E. No improvement required
25. Choose the best improvement: “She is one of the students who works consistently.”
A. who work consistently
B. which works consistently
C. who is working consistently always
D. who has work consistently
E. No improvement required
26. Choose the correct sentence.
A. He is senior than me.
B. He is senior to me.
C. He is more senior than to me.
D. He is senior from me.
E. No improvement required
27. Choose the best improvement: “The reason for his absence is because he was ill.”
A. that he was ill
B. due to because he was ill
C. because of he was ill
D. for he was ill because
E. No improvement required
28. Choose the clearest sentence.
A. Walking through the corridor, the notice board was seen by Riya.
B. Riya saw the notice board while walking through the corridor.
C. The notice board saw Riya walking through the corridor.
D. Walking through corridor, Riya the notice board saw.
E. No improvement required
29. Choose the correct sentence.
A. The information are useful.
B. The informations are useful.
C. The information is useful.
D. An information is useful.
E. No improvement required
30. Choose the best improvement: “The company aims to reduce costs, improving quality, and customer satisfaction.”
A. reduce costs, improve quality, and increase customer satisfaction
B. reducing costs, to improve quality, and customer satisfaction
C. cost reduction, improving quality, and to satisfy customers
D. reduce costs, quality improvement, and satisfying customers
E. No improvement required
31. Choose the correct sentence.
A. If I would have known, I would have called.
B. If I had known, I would have called.
C. If I knew yesterday, I will call.
D. If I have known, I would call yesterday.
E. No improvement required
32. Choose the best improvement: “The results were different than we expected.”
A. different from what we expected
B. different to that we expected
C. different than what did we expect
D. different with we expected
E. No improvement required

PART 4 — MISSING LINKS / CLOZE TEST

A successful team depends on more than individual talent. Members must communicate (36) ____ and understand how their responsibilities fit together. When expectations are unclear, small misunderstandings can (37) ____ into larger problems. A good leader therefore makes goals (38) ____ and encourages people to raise concerns early. This approach does not mean that disagreement should be (39) ____; respectful debate can reveal weaknesses in a plan. However, discussion must eventually lead to a decision, (40) ____ the team risks losing momentum. Clear roles also help prevent the same task from being completed (41) ____ by two people. Teams should review progress (42) ____ and adjust when evidence suggests a different approach. Such reviews work best when mistakes are treated as opportunities to learn (43) ____ occasions for blame. In this environment, members become more willing to share information, ask for help, and take (44) ____ for their work. Trust grows when commitments are (45) ____ and concerns are taken seriously. This is not a team without problems, (46) ____ a team that can recognise and solve them. Managers can support this process by listening (47) ____ and giving specific feedback.

33. 36. Choose the most appropriate word.

A. clearly

B. rarely

C. accidentally

D. carelessly

E. silently

34. 37. Choose the most appropriate word.

A. expand

B. evolve

C. escalate

D. escape

E. erase

35. 38. Choose the most appropriate word.

A. visible

B. clear

C. secret

D. distant

E. temporary

36. 39. Choose the most appropriate word.

A. encouraged

B. avoided

C. celebrated

D. measured

E. repeated

37. 40. Choose the most appropriate connector.

A. otherwise

B. although

C. similarly

D. for example

E. meanwhile

38. 41. Choose the most appropriate adverb.

A. carefully

B. independently

C. twice

D. repeatedly

E. separately

39. 42. Choose the most appropriate adverb.

A. regularly

B. rarely

C. accidentally

D. reluctantly

E. briefly

40. 43. Choose the most appropriate phrase.
A. rather than
B. in spite of
C. as if
D. even though
E. in case of
41. 44. Choose the most appropriate phrase.
A. responsibility
B. permission
C. advantage
D. exception
E. distance
42. 45. Choose the most appropriate word.
A. kept
B. forgotten
C. hidden
D. delayed
E. ignored
43. 46. Choose the most appropriate connector.
A. but
B. or
C. because
D. unless
E. therefore
44. 47. Choose the most appropriate adverb.
A. attentively
B. angrily
C. randomly
D. occasionally
E. secretly

PART 5 — SPOTTING ERRORS

45. Identify the part containing an error: “The quality of these products / have improved / considerably / in recent months.”
A. The quality of these products
B. have improved
C. considerably
D. in recent months
E. No error
46. Identify the part containing an error: “Each of the candidates / were asked / to carry / an identity card.”
A. Each of the candidates
B. were asked
C. to carry
D. an identity card
E. No error
47. Identify the part containing an error: “She has been working / in this office / since five years / without a break.”
A. She has been working
B. in this office
C. since five years
D. without a break
E. No error
48. Identify the part containing an error: “The committee discussed / the proposal / before making / its final decision.”
A. The committee discussed

B. the proposal

C. before making

D. its final decision

E. No error

49. Identify the part containing an error: “He prefers tea / than coffee / when he studies / late at night.”

A. He prefers tea

B. than coffee

C. when he studies

D. late at night

E. No error

50. Identify the part containing an error: “The information / provided by the guide / were useful / to all participants.”

A. The information

B. provided by the guide

C. were useful

D. to all participants

E. No error

51. Identify the part containing an error: “No sooner had the meeting begun / when the power / suddenly went off / in the building.”

A. No sooner had the meeting begun

B. when the power

C. suddenly went off

D. in the building

E. No error

52. Identify the part containing an error: “The speaker explained / the process clearly / so that everyone / could understand it.”

A. The speaker explained

B. the process clearly

C. so that everyone

D. could understand it

E. No error

53. Identify the part containing an error: “There are less applicants / this year / than last year / for the same programme.”

A. There are less applicants

B. this year

C. than last year

D. for the same programme

E. No error

54. Identify the part containing an error: “The manager, along with two assistants, / are attending / the conference / this afternoon.”

A. The manager, along with two assistants,

B. are attending

C. the conference

D. this afternoon

E. No error

55. Identify the part containing an error: “If she had received the message, / she would inform / us immediately / about the change.”

A. If she had received the message

B. she would inform

C. us immediately

D. about the change

E. No error

56. Identify the part containing an error: “The new equipment / is more efficient / than the old machine / we used last year.”

A. The new equipment

B. is more efficient

C. than the old machine
D. we used last year
E. No error

PART 6 — VOCABULARY AND WORD USAGE

57. Choose the word closest in meaning to “meticulous”.
A. careless
B. precise and attentive to detail
C. impatient
D. ordinary
E. uncertain
58. Choose the antonym of “abundant”.
A. plentiful
B. ample
C. scarce
D. numerous
E. sufficient
59. Choose the word closest in meaning to “alleviate”.
A. worsen
B. relieve
C. conceal
D. delay
E. predict
60. Choose the antonym of “impartial”.
A. fair
B. neutral
C. biased
D. objective
E. unprejudiced
61. Choose the correct word: “Please _____ my apology.”
A. accept
B. except
C. expect
D. aspect
E. access
62. Choose the correct word: “The new curtains _____ the colour of the walls.”
A. compliment
B. complement
C. complementary to
D. complimentary with
E. complimented
63. Choose the correct word: “The school _____ addressed the assembly.”
A. principal
B. principle
C. principals
D. principled
E. principality
64. Choose the word closest in meaning to “reluctant”.
A. eager
B. unwilling
C. certain
D. prepared
E. delighted
65. Choose the antonym of “lucid”.

A. clear
B. coherent
C. obscure
D. understandable
E. plain
66. Choose the correct word: “The stationery shop sells paper and writing _____.”
A. stationary
B. stationery
C. stationariness
D. stationed
E. station
67. Fear of heights is called:
A. Arachnophobia
B. Acrophobia
C. Agoraphobia
D. Glossophobia
E. Nyctophobia
68. An excessive passion for books or book collecting is commonly called:
A. Pyromania
B. Kleptomania
C. Bibliomania
D. Dipsomania
E. Megalomania
69. In the word “misinterpret”, the prefix “mis-” most nearly means:
A. before
B. again
C. wrongly
D. between
E. under
70. The suffix “-less” usually means:
A. full of
B. without
C. capable of
D. in a manner
E. one who
71. Complete the analogy: SEED : PLANT :: EGG : ____
A. nest
B. bird
C. shell
D. feather
E. incubator
72. A person who can speak or use many languages is a:
A. polyglot
B. novice
C. hermit
D. omnivore
E. arbitrator
73. The idiom “at the eleventh hour” means:
A. very early
B. at the last possible moment
C. without planning
D. for eleven hours
E. in secret
74. The idiom “break the ice” means:

A. damage something frozen
B. start a conversation and ease social tension
C. end a friendship
D. reveal a secret
E. stop an argument
75. Choose the best word: “The new evidence may _____ the original conclusion.”
A. affect
B. effect
C. except
D. accept
E. advice
76. Choose the antonym of “vague”.
A. unclear
B. imprecise
C. precise
D. uncertain
E. ambiguous

PART 7 — TEST OF SPELLINGS

77. Choose the correctly spelt word.
A. Accomodation
B. Accommodation
C. Acommodation
D. Accommadation
E. Acomodation
78. Choose the correctly spelt word.
A. Definately
B. Definatly
C. Definitely
D. Definetely
E. Definitly
79. Choose the correctly spelt word.
A. Seperate
B. Separate
C. Seperete
D. Sepparate
E. Separrate
80. Choose the correctly spelt word.
A. Maintanance
B. Maintainance
C. Maintenance
D. Maintenence
E. Maintenanse
81. Choose the correctly spelt word.
A. Occurence
B. Occurrence
C. Ocurrence
D. Occurrance
E. Occurance

PART 8 — JUMBLED PARAGRAPHS

82. Arrange the sentences in a logical order. (P) The results were compared across groups. (Q) The researcher first defined the question. (R) Finally, the findings supported a cautious conclusion. (S) Data were collected using a consistent method.

A. Q–S–P–R

B. S–Q–R–P

C. P–Q–S–R

D. Q–P–R–S

E. R–Q–S–P

83. Arrange the sentences in a logical order. (P) As a result, delays became less frequent. (Q) The company examined the causes of late deliveries. (R) It changed the route-planning process. (S) The old system did not account for peak-hour traffic.

A. Q–S–R–P

B. S–Q–R–P

C. P–R–Q–S

D. R–P–S–Q

E. S–R–P–Q

84. Arrange the sentences in a logical order. (P) This made the instructions easier to follow. (Q) The manual used long technical paragraphs. (R) The editor divided it into short steps and added examples. (S) Users later completed the task with fewer errors.

A. Q–R–P–S

B. R–Q–S–P

C. P–Q–R–S

D. Q–P–S–R

E. S–Q–R–P

85. Arrange the sentences in a logical order. (P) However, the initial response was limited. (Q) The council introduced a recycling programme. (R) It consulted residents and changed collection timings. (S) Participation increased after these changes.

A. Q–P–R–S

B. P–Q–R–S

C. Q–R–S–P

D. R–Q–P–S

E. S–R–Q–P

86. Arrange the sentences in a logical order. (P) Consequently, the team postponed the launch. (Q) During testing, several serious defects were discovered. (R) The defects were investigated and corrected. (S) A final test was scheduled before release.

A. Q–P–R–S

B. R–Q–P–S

C. P–Q–R–S

D. Q–R–S–P

E. S–Q–P–R

87. Arrange the sentences in a logical order. (P) The verified locations were ranked by severity. (Q) Residents reported several damaged roads after heavy rain. (R) Inspection teams checked the reports. (S) This evidence helped planners prioritise urgent repairs.

A. Q–R–P–S

B. R–Q–S–P

C. P–Q–R–S

D. Q–S–R–P

E. S–P–Q–R

88. Arrange the sentences in a logical order. (P) As a result, customers found the process easier to complete. (Q) The application form contained several unnecessary fields. (R) The company reviewed feedback from new users. (S) It removed fields that were not essential.

A. Q–R–S–P

B. R–Q–S–P

C. P–Q–R–S

D. Q–S–P–R

E. S–P–Q–R

89. Arrange the sentences in a logical order. (P) The second result was much lower. (Q) The first trial produced an unusually high success rate. (R) The team therefore repeated the test. (S) The repeat was conducted under the same conditions.

A. Q–R–S–P

B. S–Q–P–R

C. R–Q–S–P

D. Q–S–R–P

E. P–Q–R–S

PART 9 — CRITICAL REASONING

90. A company claims its training programme increased productivity because productivity rose after the programme began. Which option most weakens the claim?

A. Employees found the handouts clear.

B. A new software system was introduced at the same time and automated routine tasks.

C. The training lasted four weeks.

D. Some employees enjoyed the programme.

E. Productivity was measured monthly.

91. A city argues that adding streetlights will reduce nighttime accidents. Which assumption is most necessary?

A. All accidents happen at night.

B. Poor visibility contributes to at least some nighttime accidents.

C. Streetlights are cheap.

D. Drivers prefer brighter streets.

E. The city has many roads.

92. A shop owner says loyalty-card users spend more, so the card causes higher spending. Which fact most weakens this reasoning?

A. The card is free.

B. The shop sells many products.

C. Frequent customers are more likely to join the loyalty programme in the first place.

D. Some shoppers forget the card.

E. The shop opens early.

93. All reports published by the institute undergo peer review. Report X was published by the institute. Which conclusion follows?

A. Report X is necessarily correct.

B. Report X underwent peer review.

C. All peer-reviewed reports are published by the institute.

D. Report X has no limitations.

E. The institute publishes only research reports.

94. A school concludes its reading programme is effective because scores improved in one class. What information would be most useful?

A. The classroom wall colour.

B. Whether a similar class without the programme improved by a comparable amount over the same period.

C. The number of books in the library.

D. Whether students like the programme name.

E. The school building age.

95. A manager argues that meetings should be shorter because long meetings reduce focused work time. Which option best strengthens the argument?

A. Some employees prefer in-person meetings.

B. Teams using shorter, focused meetings completed comparable work with fewer interruptions.

C. The company hired new staff.

D. Meetings are held on Mondays.

E. Rooms have large screens.

96. Bus use rose after fares were reduced. Which fact most strengthens the claim that lower fares caused the increase?

A. A festival attracted many visitors at the same time.

B. No major service changes occurred, and many new riders cited the lower fare as their main reason for switching.

C. Fuel prices rose nearby.

D. The fleet is old.

E. Some residents still walk.

97. A company says remote work increases productivity because remote employees complete more tasks. Which fact most weakens the conclusion?

A. Remote employees use video meetings.

B. Remote employees are assigned simpler tasks than office employees.

C. Employees can work from home.

D. The company records task totals.

E. Some teams meet weekly.

98. A policy is said to reduce waste because waste fell after it was introduced. Which question would best evaluate the claim?

A. What colour is the policy document?

B. Did waste also fall in comparable places without the policy during the same period?

C. How many officials signed the policy?

D. Was the policy announced on a Monday?

E. How long is the policy title?

99. A researcher concludes that a new app improved attendance because attendance rose after launch. Which assumption is most relevant?

A. The app has a colourful design.

B. No other major change sufficiently explains the attendance increase.

C. Students own phones.

D. The app was launched online.

E. Attendance was recorded.

100. Every candidate who passes the written test is invited to interview. Mira passed the written test. What follows?

A. Mira will get the job.

B. Mira is invited to interview.

C. Every interviewee passes the written test.

D. Mira has already attended the interview.

E. Mira scored highest.

ANSWER SHEET

Write one letter (A–E) for every question. Keep the answer key closed until the mock is complete.

Q	Answer	Q	Answer	Q	Answer	Q	Answer
1	_____	26	_____	51	_____	76	_____
2	_____	27	_____	52	_____	77	_____

Score: _____ / 100 Time: _____ minutes Accuracy: _____ %

Weakest section: _____

ANSWER KEY & HINGLISH EXPLANATIONS

Test questions are in English; explanations below are in Hinglish for revision.

1. B — Metrics are useful but should not be treated as a complete picture of performance.

Why: Passage metrics ko reject nahi karta; woh kehta hai ki metrics useful hain, lekin quality aur outcomes ke saath interpret karne chahiye.

2. B — answering quickly does not necessarily resolve the underlying problem

Why: Quick response aur actual problem resolution alag cheezein hain; speed alone service quality prove nahi karti.

3. A — People may prioritise the number over the real objective.

Why: Jab metric hi target ban jaata hai, log number improve karne par focus karte hain, underlying service par nahi.

4. B — is a simplified representation of something more complex

Why: Model reality ka simplified representation hai, reality ki har detail nahi.

5. B — balanced and cautionary

Why: Author benefits bhi maanta hai aur limitations bhi; tone balanced aur cautionary hai.

6. C — Combine metrics with quality checks and long-term outcomes.

Why: Passage directly quantitative indicators ko quality checks aur long-term outcomes ke saath combine karne ko support karta hai.

7. C — Measurement should always be abandoned.

Why: Author clearly kehta hai measurement abandon nahi karna chahiye; use better context ke saath interpret karna chahiye.

8. A — effects that were not planned or expected

Why: Unintended ka matlab planned ya expected na kiye gaye effects.

9. A — The same metric may not fully describe every type of work.

Why: Different work alag hota hai; ek metric uski full reality capture nahi kar sakta.

10. B — When Metrics Do Not Tell the Whole Story

Why: Yeh title passage ke central theme ko capture karta hai: metrics informative hain but incomplete.

11. B — explain why the value of green spaces depends on planning and practical use

Why: Passage green spaces ke benefits batata hai, lekin effective planning, access aur maintenance ko essential kehta hai.

12. E — lower housing taxes

Why: Housing taxes ka mention nahi hai.

13. B — It is difficult to reach.

Why: Passage directly kehta hai difficult-to-reach park underused reh sakta hai.

14. C — convenient but not enough by itself

Why: Tree count ek simple indicator hai, but health, access aur actual community use bhi important hain.

15. A — practical and analytical

Why: Passage practical planning factors ko analyse karta hai, without emotional language.

16. B — benefits depend on conditions and implementation

Why: Benefits tabhi milte hain jab location, maintenance aur design theek ho.

17. B — species selection

Why: Species selection passage mein directly listed factor hai.

18. A — An accessible, maintained green space may benefit residents more than a poorly planned one.

Why: Passage access, maintenance aur real use ko value ke central factors batata hai.

19. B — actually meet residents' needs

Why: Community serve karna means residents ki practical needs meet karna.

20. A — Green Spaces: Beyond Appearance and Numbers

Why: Title central contrast ko show karta hai: appearance/count se aage actual community benefit.

21. A — were willing

Why: Neither…nor mein verb usually nearest subject se agree karta hai. Nearest subject "teachers" plural hai.

22. B — Each of the applicants has submitted the form.

Why: “Each” singular hai, isliye “has submitted” correct hai.

23. A — much better than

Why: “Better” already comparative hai; “more better” double comparative hai.

24. A — discussed the proposal

Why: Discuss ke baad direct object aata hai; “about” unnecessary hai.

25. A — who work consistently

Why: “Who” plural noun “students” ko refer karta hai; “work” plural verb hai.

26. B — He is senior to me.

Why: Standard usage “senior to” hai.

27. A — that he was ill

Why: “The reason is because” awkward/redundant hai; “the reason … is that” better hai.

28. B — Riya saw the notice board while walking through the corridor.

Why: Modifier Riya ko describe karna chahiye, notice board ko nahi.

29. C — The information is useful.

Why: Information uncountable singular noun hai; “is useful” correct hai.

30. A — reduce costs, improve quality, and increase customer satisfaction

Why: Parallel verbs: reduce, improve, increase. List ka structure consistent hona chahiye.

31. B — If I had known, I would have called.

Why: Third conditional: If + past perfect, would have + past participle.

32. A — different from what we expected

Why: Formal standard usage mein “different from what we expected” natural hai.

33. A — clearly

Why: Clear communication hi team responsibilities ko align karti hai.

34. C — escalate

Why: Misunderstandings can escalate into larger problems; “escalate” means increase in seriousness.

35. B — clear

Why: Goals clear honge to members expectations samajh paayenge.

36. B — avoided

Why: Respectful debate useful hai, isliye disagreement ko avoid nahi karna chahiye. Blank: should be avoided.

37. A — otherwise

Why: Decision na aaye to momentum lose ho sakta hai; “otherwise” result/warning dikhata hai.

38. C — twice

Why: “The same task … twice by two people” describes duplicated work; “twice” is the precise fit.

39. A — regularly

Why: Progress regular intervals par review karna useful hota hai.

40. A — rather than

Why: Mistakes ko learning opportunities ke roop mein treat karna, blame ke occasions ke bajaye: “rather than”.

41. A — responsibility

Why: “Take responsibility for their work” fixed and natural expression hai.

42. A — kept

Why: Commitments are kept = promises/commitments fulfil kiye jaate hain.

43. A — but

Why: Structure “not one that…, but one that…” correct contrast hai.

44. A — attentively

Why: Listening attentively means dhyaan se sunna; feedback ke saath logical fit.

45. B — have improved

Why: Main subject “quality” singular hai; “has improved” hona chahiye.

46. B — were asked

Why: Each singular hai, so “was asked”.

47. C — since five years

Why: Duration ke saath “for five years” use hota hai; since starting point ke liye.

48. E — No error

Why: Sentence grammatically correct hai; discuss + object direct construction hai.

49. B — than coffee

Why: “Prefer X to Y” correct form hai.

50. C — were useful

Why: Information uncountable singular noun hai; “was useful”.

51. B — when the power

Why: Standard pair “no sooner…than” hai.

52. E — No error

Why: Sentence correct hai; “so that” purpose/result clause introduce karta hai.

53. A — There are less applicants

Why: Applicants countable plural hain; “fewer applicants” hona chahiye.

54. B — are attending

Why: Main subject manager singular hai; “is attending”. “Along with…” subject ko plural nahi banata.

55. B — she would inform

Why: Third conditional mein “would have informed” chahiye.

56. E — No error

Why: Sentence acceptable hai; equipment ko machine se compare karna contextually understood as equipment/system.

57. B — precise and attentive to detail

Why: Meticulous ka meaning careful, precise, detail-oriented hota hai.

58. C — scarce

Why: Abundant = plenty; opposite scarce = kam/limited.

59. B — relieve

Why: Alleviate means pain/problem ko reduce ya relieve karna.

60. C — biased

Why: Impartial = unbiased; opposite biased.

61. A — accept

Why: Accept = receive/agree to; sentence mein apology accept karna hai.

62. B — complement

Why: Complement means match/improve something; compliment means praise.

63. A — principal

Why: Principal = school head; principle = rule/value.

64. B — unwilling

Why: Reluctant ka meaning unwilling/hesitant hota hai.

65. C — obscure

Why: Lucid = clear; obscure = unclear.

66. B — stationery

Why: Stationery = paper/writing materials; stationary = not moving.

67. B — Acrophobia

Why: Acrophobia height-related fear hai. Arachnophobia spiders, glossophobia public speaking, aur nyctophobia darkness se related hai.

68. C — Bibliomania

Why: Bibliomania ka relation books ke excessive passion/collecting se hai.

69. C — wrongly

Why: Mis- ka meaning wrongly/badly hota hai, jaise misunderstand or misjudge.

70. B — without

Why: “-less” means without, e.g. careless = without care.

71. B — bird

Why: Seed se plant develop hota hai; egg se bird develop hota hai. Relation = origin/development.

72. A — polyglot

Why: Polyglot means a person who knows/uses multiple languages.

73. B — at the last possible moment

Why: “At the eleventh hour” = bilkul last moment par.

74. B — start a conversation and ease social tension

Why: Break the ice means conversation shuru karke awkwardness/tension kam karna.

75. A — affect

Why: “May” ke baad verb chahiye. Affect verb hai; effect usually noun (as a verb, it has a different meaning).

76. C — precise

Why: Vague = unclear/imprecise; opposite precise.

77. B — Accommodation

Why: Accommodation mein double c aur double m hote hain.

78. C — Definitely

Why: Correct spelling definitely hai.

79. B — Separate

Why: Correct spelling separate hai; “par” pattern yaad rakho.

80. C — Maintenance

Why: Correct spelling maintenance, linked to maintain.

81. B — Occurrence

Why: Occurrence mein double c aur double r aata hai.

82. A — Q–S–P–R

Why: Question define → data collect → results compare → conclusion. Correct order Q–S–P–R.

83. B — S–Q–R–P

Why: S problem hai, Q investigation, R fix, P result. Order S–Q–R–P.

84. A — Q–R–P–S

Why: Q problem, R change, P immediate effect of change, S later outcome.

85. A — Q–P–R–S

Why: Programme launch Q, limited response P, adjustment R, improvement S.

86. A — Q–P–R–S

Why: Defects discovered Q, launch postponed P, defects fixed R, final test S.

87. A — Q–R–P–S

Why: Reports Q → verification R → ranking P → use of evidence S. “This evidence” refers to the ranking/verified information.

88. A — Q–R–S–P

Why: Q problem → R feedback review → S form simplification → P result.

89. A — Q–R–S–P

Why: High first result Q led the team to repeat R; repeat conditions S then produced lower second result P.

90. B — A new software system was introduced at the same time and automated routine tasks.

Why: Software automation ek alternative cause hai, so productivity rise training ki wajah se hi hua claim weak hota hai.

91. B — Poor visibility contributes to at least some nighttime accidents.

Why: Agar poor visibility accidents mein contribute hi nahi karti, lights se accidents reduce hone ka argument link lose karta hai.

92. C — Frequent customers are more likely to join the loyalty programme in the first place.

Why: Selection bias/reverse explanation: already frequent customers card lete hain, card spending badhata hai ye prove nahi hota.

93. B — Report X underwent peer review.

Why: Dono statements combine karne par X peer review se guzra hoga. Correctness automatically guarantee nahi hoti.

94. B — Whether a similar class without the programme improved by a comparable amount over the same period.

Why: Comparison group se programme ka separate effect evaluate kiya ja sakta hai.

95. B — Teams using shorter, focused meetings completed comparable work with fewer interruptions.

Why: Direct comparison shorter, focused meetings ko fewer interruptions ke saath connect karti hai.

96. B — No major service changes occurred, and many new riders cited the lower fare as their main reason for switching.

Why: Alternative changes nahi hue aur riders ne lower fare cite kiya; cause claim stronger hai.

97. B — Remote employees are assigned simpler tasks than office employees.

Why: Task difficulty different hai, so raw completion count fair comparison nahi.

98. B — Did waste also fall in comparable places without the policy during the same period?

Why: Comparison areas se pata chalega ki decline policy ke bina bhi hota ya nahi.

99. B — No other major change sufficiently explains the attendance increase.

Why: Cause-effect claim ko support karne ke liye alternative explanations ko consider karna zaroori hai.

100. B — Mira is invited to interview.

Why: Rule directly says pass karne wale candidates interview ke liye invited hain. Job selection infer nahi hoti.

POST-MOCK ANALYSIS

Use this after checking your answers. A score is useful, but repeated error patterns tell you what to revise next.

Prompt	Notes
RC passage with most mistakes	_____
Question types to revise	_____
Grammar rules to revise	_____
Vocabulary/spelling errors	_____
Careless or misread questions	_____
One action before the next mock	_____

Practice score guide (not official CET cut-offs): 85–100 = strong current practice; 70–84 = useful foundation, review errors; 55–69 = targeted revision needed; below 55 = revisit concepts before another full-length mock.
