Day	Main task	End-of-day checkpoint
Mon–Thu	Learn the week's Quant + Reasoning topic; daily VARC maintenance	Mark topic status: not started / in progress / done
Friday	Close leftover concepts + mixed 25–30 question set	Update formula sheet + error log
Saturday	Timed sectional/test from the week's milestone; review every wrong answer	Record score, time, and top 3 mistakes
Sunday	Rest. Optional 30-minute catch-up only if behind	Plan next week; do not sacrifice sleep

Rule: A chapter is complete only after concepts + questions + error review. VARC is maintenance because that syllabus is already completed.

THE 24-WEEK ROADMAP — ONE ROW = ONE WEEK

Dates are planning anchors, not official exam dates. Shift the final mock phase when the CET Cell publishes the 2027 schedule.

Week / dates	Quant focus (from your book)	Logical / Abstract Reasoning	VARC + test milestone
W01 28 Oct–03 Nov	Simplification + Number System	Alphabet Test + Coding–Decoding	20 min daily VARC: 1 RC passage on 3 days; grammar/vocab on other days TEST: Baseline: 30Q mixed diagnostic
W02 04 Nov–10 Nov	HCF & LCM + Surds & Indices	Blood Relation + Order/Ranking + Direction Sense	RC inference/detail; 15 vocab words TEST: 2 mini-tests: Quant 20Q + LR 20Q
W03 11 Nov–17 Nov	Linear & Quadratic Equations + Average	Syllogism + Inequalities	Sentence improvement + error spotting TEST: 25Q Quant timed set
W04 18 Nov–24 Nov	Percentage + Profit & Loss	Input–Output + Letter Series	1 RC + review all wrong answers TEST: 25Q reasoning timed set
W05 25 Nov–01 Dec	SI & CI + Ratio & Proportion	Seating Arrangement basics	Cloze + grammar mixed drills TEST: 50Q mixed sectional
W06 02 Dec–08 Dec	Partnership + Mixture & Alligation	Puzzles: linear/circular basics	1 RC + vocabulary recall TEST: 50Q Quant sectional
W07 09 Dec–15 Dec	Problems on Ages + Time, Speed & Distance	Puzzles: floor/box/month arrangements	Cloze + jumbled paragraphs TEST: 50Q LR sectional
W08 16 Dec–22 Dec	Time & Work + AP/GP	Data Sufficiency + Decision Making	1 RC passage + vocab/idioms TEST: 50Q VARC sectional
W09 23 Dec–29 Dec	Permutation & Combination + Probability	Inference + Cause & Effect	RC: tone, purpose, inference TEST: 100Q mixed practice mock
W10 30 Dec–05 Jan	Mensuration 2D & 3D	Statement & Assumptions + Course of Action	RC + grammar error log TEST: 50Q Quant; review every error
W11 06 Jan–12 Jan	Geometry	Statement & Arguments + Conclusion	RC + vocab in context TEST: 100Q LR/AR mixed sectional
W12 13 Jan–19 Jan	Trigonometry & Logarithms + Number Series	Number Series + Clocks & Calendars + Venn Diagram	RC + 20 mixed verbal questions TEST: 50Q Quant timed set
W13 20 Jan–26 Jan	Data Interpretation + Data Sufficiency	Matrix + Coded Equation	1 RC + revise all verbal error types TEST: 50Q Quant sectional with DI
W14 27 Jan–02 Feb	Quant catch-up + formulas	Cubes/Dice/Cuboids + Non-Verbal Reasoning	2 RC passages across the week TEST: 100Q LR+AR sectional
W15 03 Feb–09 Feb	Quant weak-topic repair	Pattern Perception + Paper Cutting/Folding	Grammar/vocab + 1 RC TEST: Full mock #1 (200Q / 150 min)
W16 10 Feb–16 Feb	Quant mixed revision	Water Image + Mirror Image + Missing Number	2 RCs + verbal mixed set TEST: Full mock #2 + deep review
W17 17 Feb–23 Feb	Arithmetic mixed sets	Analogy + Classification + weak LR topics	15–20 min daily maintenance TEST: Full mock #3
W18 24 Feb–02 Mar	Algebra + Number System mixed	Seating/Puzzles/Syllogism rotation	RC speed + inference drills TEST: Full mock #4
W19 03 Mar–09 Mar	Geometry + DI mixed	Statement-based reasoning rotation	Vocabulary + grammar speed set TEST: Full mock #5
W20 10 Mar–16 Mar	Quant sectional revision	Abstract pattern speed drills	2 RCs + one 25Q verbal drill TEST: Full mock #6
W21 17 Mar–23 Mar	Top 3 Quant weaknesses	Top 3 LR weaknesses	VARC: timed mixed practice TEST: Full mocks #7 and #8
W22 24 Mar–30 Mar	Calculation speed + formulas	High-error reasoning chapters	RC + review vocabulary/error list TEST: Full mocks #9 and #10
W23 31 Mar–06 Apr	Only weak topics + previous errors	Reasoning mixed sets; no new theory	Short RC + familiar rules only TEST: Full mocks #11 and #12
W24 07 Apr–13 Apr	Final revision: formula sheet + easy/medium questions	Light reasoning set; avoid new difficult topics	Light VARC review; sleep/routine priority TEST: Final mocks #13–14 only if exam date permits

Use: Follow one row each week. Quant and Reasoning are new-learning priorities; VARC stays on maintenance. Every week ends with a test or checkpoint.

MOCK LADDER + HOW TO KEEP THE PLAN EASY

Phase	When	What to test	Review rule
Foundation	Weeks 1–4	Topic quizzes; 20–25 Q	Fix concepts before chasing speed
Build	Weeks 5–8	50Q Quant / LR / VARC sectionals	Review for at least as long as the test
Bridge	Weeks 9–14	100Q mixed + 50Q sectionals	Tag errors: concept / misread / time / guess
Full mocks	Weeks 15–20	1 full 200Q / 150-min mock weekly	Spend 45–60 min analysing; retest errors in 48h
Final phase	Weeks 21–24	Up to 2 full mocks weekly if review quality stays high	Shift final weeks earlier if exam date comes earlier

MOCK SCORECARD — COPY ONE ROW AFTER EACH MOCK

Mock	Date	Score / 200	Time	Quant error	LR/AR error	VARC error	Next fix
Baseline	_____	_____	_____	_____	_____	_____	_____
Mock 1	_____	_____	_____	_____	_____	_____	_____
Mock 2	_____	_____	_____	_____	_____	_____	_____
Mock 3	_____	_____	_____	_____	_____	_____	_____
Mock 4	_____	_____	_____	_____	_____	_____	_____
Mock 5+	_____	_____	_____	_____	_____	_____	_____

THE 4-RULE SYSTEM

1. No passive completion Theory + practice + review = done.	2. Don't skip VARC Maintenance: 20 minutes daily.	3. Mocks are not marks only Every mock should produce 3 fixes.	4. Protect the buffer Catch up on Sunday; don't push every date.

Date note: the CET Cell timetable currently lists the 2026 cycle; I couldn't verify an official 2027 exam date. The published 2026 pattern is 200 questions in 150 minutes: 50 Quant, 50 VARC, 75 Logical Reasoning, and 25 Abstract Reasoning. Confirm the 2027 brochure when released.
