OMETS

OTHER MANAGEMENT ENTRANCE TESTS

While CAT is the most popular MBA entrance exam, OMETs (Other Management Entrance Tests) like **XAT, NMAT, SNAP, CMAT, SRCC GBO, and MAH-CET** open doors to many top B-schools across India. These exams provide diverse opportunities, allowing us to apply to multiple institutes and increase our chances of securing admission into a great MBA program.

Each OMET has a **unique exam pattern and requires a different strategy**. For example, XAT focuses more on decision-making and verbal ability, NMAT tests speed and accuracy, while SNAP and CMAT require a balanced approach across sections. By preparing for multiple exams, we diversify our options, reduce dependency on a single test, and enhance our adaptability to different question styles.

At Cracku, we provide **full-length mocks, sectional tests, and practice sets tailored for XAT, NMAT, SNAP, CMAT, SRCC GBO, and MAH-CET.** Our mocks are designed to closely simulate the actual exams, helping us improve speed, accuracy, and test-taking strategy. Sectional tests allow focused practice, ensuring we strengthen our weak areas before the actual exam. We also provide previous year papers for your practice.

If you aim to **secure a seat in a top B-school,** preparing for OMETs along with CAT is a smart move. **More opportunities mean better chances of success!**

Success Stories

Ojas Jain

CAT 2025 - 99.97%ile

My experience with Cracku was phenomenal. Right from their interface, everything was just the way a CAT student wants it to be. The difficulty was challenging which helped me to tackle CAT 2025. The live mock attempts by Sir and Ma'am were motivating and very encouraging. I can definitely say that I would not perform as well without the help and guidance of Maruti sir and Sayali ma'am. Highly recommend it for future aspirants!

Abhinav

CAT 2025-99.96%ile

While CAT prep journey, the right tools make all the difference. For me,

Cracku has been a vital part of the toolkit. I specifically relied on their daily targets. The quality is top notch and it's the best way to stay consistent. The quiz section rarely pushes your logic with exam-level questions. What I find most helpful is the video solutions; they break down complex steps much faster than a text explanation ever could. If you want to sharpen your prep with high-quality structured content, definitely give Cracku a look. Good luck!

Yatharth

CAT 2025 - 99.95%ile

Cracku mocks played a very important role in my preparation. They helped me clearly understand the actual exam pattern, question types, and difficulty level. By regularly attempting these mocks, I became familiar with how the paper is structured and how time should be managed across sections.

Amish Kakru

CAT 2025 - 99.98%ile

Cracku has been centralto how I've structured my CAT preparation. Solving previous year papers and DashCAT mocks here feels close to the real exam, both in difficulty and in how mistakes are analysed. What helped me the most was the Daily Targets feature—it brought discipline to my day and removed ambiguity about what to do next. The free resources are genuinely useful, and the dashcats have been worth the investment.
